To create the proposed budget, the President-Elect should utilize:

- the State provided budget template
- the local network's current year budget
- current budget vs actuals year-to-date report
- the local network strategic plan and
- their local network financial policy and procedures

## Financial Procedures & Policy

The proposed budget will include income (revenue) goals to be collected from membership dues, strategic partners, and fundraising activities & events. Event and fundraising templates are located within the State budget template within the playbook and should be used when preparing the proposed budget.

The proposed budget must be approved by the current year's governing board prior to October 30 of the President-Elect's year.

An amended budget will be presented to the newly installed governing board during the January meeting for approval. This amended budget will be a modification of the proposed budget and will be updated to more accurately reflect the local network's committed strategic partnerships along with any adjustments that may be needed once the previous year's accounting has been closed. Once approved by the newly installed governing board, the amended budget is not to be modified during the course of the year unless special circumstances warrant an exception. This exception to the budget must be approved by the State Line, followed by a majority vote of the local network's governing board.

Only budgeted line amounts shall be reimbursable. Any non-budgeted requests for reimbursement must be approved by the Governing Board.

Any expenditures that exceed the budgeted amount must have governing board approval and be documented in the minutes. This approval must be filed within the audit book.
